Sunday, 11 June 2006

Hurt, Three Days Grace , and Modern Day zero (the bands) all rolled into Piere's on June 8th. It was not too long before Grade A was full of rock stars and roadies. It was a day that was like no other in recent history. Usually when two or more bands come in town, we might get a visit one or sometimes two but never all three. We had some super star power going on all day J. Loren lead singer from Hurt was in and out all day. All we can say about him is what a super nice and really down to earth guy. All the rest of the group came over to the studio during the day, and we have a lot of pictures in the gallery on this page. Evan, Joshua, and Paul all posed for pictures when not getting work done or doing sound checks at Piere's.

Three Days Grace was running in and out all day long too. We did some work during the day and everyone got to sign Ron's Guitar. We have their pictures in the gallery also. We were invited to the show and these three bands rocked the house. After the show some the band members came back down to the studio to get more work down that we could not get down during the day. It was an all-nighter with Ron finishing up Barry's arm at 7:00 am Friday morning. This is the piece that Ron worked on all night. {moscomment}
